

# BSC 2019

5th Annual Meeting of the  
Biophysical Society of Canada

UofT Mississauga, ON • May 28-31, 2019

## Special Topics

Biophotonics • Disordered Proteins • Receptors & Cell Signaling • Biopolymers  
Single-Molecule Biophysics • Cell & Systems • Cell Mechanics • Membranes

**ABSTRACT DEADLINE:**

**APRIL 1, 2019**

The Annual Meeting of the Biophysical Society of Canada offers attendees the opportunity to learn about exciting new developments in Biophysics research and to network with peers from across Canada and further afield.

This year's BSC 2019 Meeting will take place at the University of Toronto Mississauga (UTM). The University of Toronto, Canada's largest university, is composed of three campuses with the Mississauga campus (UTM) situated just west of the downtown Toronto core on 225 acres of protected greenbelt. The City of Mississauga has many opportunities for dining, shopping, and sightseeing in the Greater Toronto Area.

## NATIONAL LECTURER

**HUE SUN CHAN**

University of Toronto  
Department of Biochemistry

Theoretical and Computational  
Investigations of  
Protein Folding, Interactions,  
and Evolution

## KEYNOTE SPEAKERS

**SAMUEL T. HESS**

University of Maine,  
Physics & Astronomy

**EDWARD LEMKE**

Johannes Gutenberg  
University,  
Synthetic Biophysics

**TANJA MITTAG**

St. Jude Children's  
Research Hospital,  
Structural Biology

**JOHAN PAULSSON**

Harvard University,  
Systems Biology

**EARLY REGISTRATION ENDS:**

**MARCH 1, 2019**

## 2019 Conference Organizers (UTM)

Claudiu  
Gradinaru

Joshua  
Milstein

Andreas  
Hilfinger

Sarah  
Rauscher

Biophysical Society  
Société de Biophysique  
du Canada
