Dr. Neal Silverman

UMass Chan Medical School

***FROM BUGS TO DRUGS:
SLC46S AS CRITICAL
COMPONENTS FOR INNATE
IMMUNE RECOGNITION
AND TARGETS FOR ANTI-
INFLAMMATORY
THERAPIES***

FRIDAY

FEBRUARY 14, 2025

1:30 - 2:30 PM

**PGCRL
Event room 1**

Dr. Silverman received his B.A in Molecular Biology from UC Berkeley in 1989 and his PhD from MIT Biology in 1996. He was then a postdoctoral fellow in Molecular and Cellular Biology at Harvard University working with Tom Maniatis. He joined the faculty at UMass Chan Medical School in 2001, in the Division of Infectious Diseases and Immunology. Dr. Silverman is currently a Professor of Medicine and Research Director for the Division.

Hosted by : Dr. Julie Brill
