

CELL & SYSTEMS BIOLOGY SEMINAR

Linda Penn, PhD

PRINCESS MARGARET CANCER CENTRE

**ONCOGENIC MYC-PROTEIN
INTERACTIONS AS CANCER
VULNERABILITIES**

FRIDAY

NOVEMBER 29, 2024

1:30 - 2:30 PM

Event Room 1

Rm 02.9320

Dr. Penn is a Senior Scientist at the Princess Margaret Cancer Centre and a Professor of Medical Biophysics at the University of Toronto. She is a scientific advisor on several national/international review panels, serves on several journal editorial boards and is on the Board of the Terry Fox Research Institute. Dr. Penn's lab focuses on the regulation and function of MYC in cancer and evaluating the role of statin drugs as anti-cancer agents.

Hosted By: Dr. Annie Huang
