

SPECIAL SEMINAR

Principal Investigator Candidate Developmental and Stem Cell Epigenetics

Dr. Colin C. Conine

Department of Biochemistry and Molecular Pharmacology
University of Massachusetts Medical School
Worcester, MA 10605, USA

Title:

"Transmission of non-genetic information by sperm small RNAs"

Tuesday, December 18, 2018 3:00 p.m.

Location:

Princess Margaret Hospital 610 University Avenue 7th Floor, Room 7-605

Dr. Conine did his PhD with Dr. Craig Mello and his postdoc with Dr. Oliver Rando at the University of Massachusetts Medical School, Worcester. He has done pioneering studies on the roles of small RNAs in transmitting non-genetic information across generations, in both C. elegans and mouse. His work has been published in Science, Cell, Developmental Cell and PNAS.

Host: Dr. Julie M. Claycomb / Miguel Ramalho-Santos
