

Emerging Frontiers in Cancer Biology and Therapy

A symposium sponsored by the Garron Family Cancer Centre and the Program
in Developmental and Stem Cell Biology,
The Hospital for Sick Children

**September 9 & 10, 2013
Music Room, Hart House
7 Hart House Circle
University of Toronto
9:00 a.m. – 6:00 p.m.**

This two-day symposium will provide an interdisciplinary forum to discuss current and future approaches to understanding the molecular mechanisms of cell death in normal and tumor-initiating cells. Leading clinical and basic researchers from Canada and throughout the world will discuss new ideas and novel therapeutic strategies for treating human cancer.
