

IDCCM Visiting Professor and Kavanagh Physiology Rounds

Tuesday January 31, 2023

3:00 pm - 4:00 pm

Via ZOOM!

"Mechanical ventilation optimization using transpulmonary pressure: Let's not ignore overdistension"

Elias N. Baedorf Kassis, MD

Medical and Scientific Director of Respiratory Care

Associate VV ECMO Director

Assistant Professor of Medicine

Division of Pulmonary and Critical Care

Beth Israel Deaconess Medical Center, Harvard Medical School

Objectives:

1. Understand chest wall physiology and the differences between transpulmonary pressure, trans-chest wall pressure and respiratory system pressures
2. Describe the relationship between pleural pressure and lung collapse
3. Explore the clinical history of esophageal manometry use in clinical care
4. Understand the importance of integrating markers of overdistension
