

# CELL BIOLOGY SEMINAR

Matthew Welch, PhD

UNIVERSITY OF CALIFORNIA, BERKELEY

**“MANIPULATION OF HOST  
CELL STRUCTURES BY  
MICROBIAL PATHOGENS”**

**FRIDAY**

**23 AUGUST, 2024**

**10.00 - 11.00 AM**

**EVENT ROOM  
2A AND 2B  
PGCRL**

*Matthew Welch is a professor of Cell and Developmental Biology and the Frances H. Williams Chair in Biological Sciences. His research focuses on how microbes interact with and manipulate host cells during infection to reveal insights into disease mechanisms and basic cellular processes.*
