

# CELL BIOLOGY SEMINAR

## Dr. Mikko Taipale

Associate Professor  
Donnelly Center for Cellular &  
Biomolecular Research &  
Molecular Genetics  
University of Toronto

***Protein  
(mis)localization  
in human disease***

**FRIDAY**

**JANUARY 17, 2025**

**1:30 - 2:30 PM**

**PGCRL  
Event Room 1  
(02.9320)**

*Dr. Mikko Taipale is an Associate Professor in Molecular Genetics at the Donnelly Center for Cellular and Biomolecular Research, U of T. Dr. Taipale's research focuses on diverse topics covering technology development in functional proteomics and genomics, protein/protein interactions, host/pathogen interactions, induced proximity proteomics, transcription, and rare diseases.*

Hosted by: Daniela Rotin
