

Tuesday Seminar Series

January 21st, 2020

4:00 pm

MSB 2173

The tip of the iceberg: What we know about the activity and function of the CTLH E3 ubiquitin ligase complex

Presented by:

**Caroline
Schild-Poulter
PhD**

**Scientist, Robarts Research Institute
Associate Professor, Department of Biochemistry
Western University**

Hosted by: Structural Genomics Consortium (SGC)
