

PROGRAM FOR INDIVIDUALIZED CYSTIC FIBROSIS THERAPY

REGISTRATION NOW OPEN: cf.centre@sickkids.ca
Towards Precision Medicine: Progress in Cystic Fibrosis
2019 Annual Meeting

Date: Wednesday, November 13, 2019
Time: 11am – 4:15pm *Lunch will be provided
Location: Daniels Hollywood Theatre, Hospital for Sick Children
Room 1246, 555 University Avenue

The Cystic Fibrosis Canada-SickKids Program in Individual CF Therapy is a collaboration between [Cystic Fibrosis Canada](#), [SickKids Foundation](#) and [The Hospital for Sick Children](#) to develop a nationally accessible resource that will accelerate the development of precision medicine for the treatment of each individual living with Cystic Fibrosis. The Program will be holding a one-day meeting to discuss the progress towards Personalized Medicine in CF, including the use of resources such as CF patient-derived iPS cells to be made accessible by the program to the Canadian CF research community, and other recent advances in the field. Some of the exciting program of short talks includes the following speakers:

Garry Cutting, Johns Hopkins University
Lisa Strug, Hospital for Sick Children
Eric Sorscher, Emory University
Christine Bear, Hospital for Sick Children
Lindsey Plasschaert, Novartis
Tanja Gonska, Hospital for Sick Children
Minh Thu Nguyen, McGill University

We hope you will join us!
