

Ph.D. SEMINAR

Molecular Genetics
UNIVERSITY OF TORONTO

Metabolomics Analysis Reveals Novel Aspects of 2-Hydroxyglutarate Homeostasis and Links Citramalate to Branched Chain Amino Acid Metabolism

Olga Zaslaver

PhD Candidate,
Department of Molecular Genetics

Amy Caudy
Supervisor

Date: Wednesday, April 11th, 2018
Time: 9:00 AM
Place: Medical Sciences Building, 1 King's College
Circle, Room 4171

All faculty and students are encouraged to attend
